

Physician Practices

Being in a highly specialized industry that is constantly changing laws, requirements and procedures, you need a financial partner who knows healthcare. For years, we've helped physician practices implement the latest compliance requirements, streamline their financial processes, and operate more efficiently. We pride ourselves on our commitment to staying on top of the latest healthcare issues and regulations as well as our commitment to high-quality, personal service and proactive advice.

When was your last financial check up?

Experience

With healthcare being one of our largest industry specializations, we have served physician practices of all sizes in various fields, including multi-specialty, single-specialty and multi-state practices.

We have assisted practices grow from start-ups through stages of rapid growth and through ownership transition, including the sale of a physician practice to a public company.

We are intimately familiar with the operational intricacies and challenges medical practices face. However, in the ever-changing healthcare industry, we know there is no one-size-fits-all approach to taking care of our clients. We develop an individualized service plan that meets each client's needs and budget. Our commitment to high-quality, personal service and proactive advice sets us apart.

Commitment

Financial, compliance and consulting professionals from Kraft Healthcare Consulting and KraftCPAs come together to make up our healthcare industry team.

40 We have healthcare clients in 40 states across the U.S.

21 Our healthcare industry team members hold 21 healthcare related professional certifications.

12 Our professionals are active members in 12 local and national professional healthcare organizations.

We are members of the National CPA Health Care Advisors Association, a nationwide network of CPA firms devoted to serving the healthcare industry.
