

# Technology & Security Solutions

In today's fast-paced business environment, implementing strong technology and security solutions are essential for every business owner who wants to improve productivity, enhance efficiency, streamline processes, save valuable time and protect critical information assets.

The money you spend on technology should be an investment — not an expense.

## We will make technology & security work for you

### Experience

Kraft has the credentials, experience, and commitment to help clients identify, implement and support the right technology to meet their unique business needs. By working with clients to identify pain points and business goals, we are able to provide customized, comprehensive technology and security solutions.

We have served a variety of middle Tennessee businesses — ranging from startup entrepreneurs who need hardware and software assistance to sophisticated multi-location enterprises that require integration of multiple business systems.

Unlike many firms, we have networking, IT, security, financial and compliance professionals on our team to offer a one-stop shop for your technology needs. We will devote the time, resources and personal attention to make technology work for you.

### Commitment

We are committed to the highest level of excellence in our profession. Our team members:

- » hold **39** technology, compliance & security professional certifications.
- » are active members in **18** local and national professional organizations.
- » teach seminars and publish articles on technology & security topics.

Also, Kraft Technology Group was named to the MSSP Alert Top 100 Managed Security Services Providers List and earned the MSPAlliance's MSP/Cloud Verify Program certification.

And, Kraft Enterprise Systems is an award-winning certified partner of NetSuite.

## Managed IT Solutions & Consulting

Are you overwhelmed by your business's technology issues or tired of handling your own computer fixes, troubleshooting and upgrades?

Our technology team can keep your business's IT systems running securely and efficiently, so you can focus on achieving and exceeding your strategic goals. We make technology work for you. Our affiliate, **Kraft Technology Group, LLC**, focuses on:

- » Managed IT services
- » Cybersecurity services
- » Cloud solutions
- » Business continuity solutions

## Risk Assurance & Advisory Services

With identity theft and fraud on the rise, information security is a critical area of concern for today's businesses, but few have the resources to ensure their data is secure, accurate,

available, and uncompromised. Teaming with KraftCPAs enables you to leverage our people, methodologies, technology, knowledge, and expertise. Our services can help you maintain the security of your data, meet regulatory compliance requirements, and add value to your business processes. Our services include:

- » Network & cybersecurity
- » Internal audit
- » IT audit & consulting
- » HIPAA/HITECH & HITRUST compliance
- » System & organization control examinations
- » Sarbanes-Oxley compliance

## Enterprise Software Systems

Through our affiliate,

**Kraft Enterprise Systems, LLC**, we help growing and middle-market companies increase efficiencies with Oracle NetSuite Cloud ERP software and in-house developed SuiteApps. We provide enterprise systems assessment, implementation, customization, and ongoing support.

NetSuite helps companies manage core business processes with a single, fully integrated system covering enterprise resource planning (ERP), financials, customer relationship management (CRM), e-commerce, and inventory. We can also assist with third-party products such as Avalara for tax automation, ADP for payroll, Merchant eSolutions for ACH and Credit Card processing.

Our in-depth knowledge of the industries we serve and our close client relationships enable our experienced team to help companies refine their business processes to enhance bottom line performance.

## QuickBooks Accounting Software

Whether you just purchased Intuit QuickBooks or have been using the software for years, **KraftCPAs Entrepreneurial Services Group** can help you.

For new users, our QuickBooks ProAdvisors® can assist you with installation, account set-up, employee training and ongoing support. For advanced users, we offer user group meetings, new employee training, and assistance with advanced projects.

“Kraft’s expertise has been tremendous help in developing new ideas and strategies for what we are trying to accomplish. The staff is very knowledgeable and their response time for support issues is terrific. We are very happy to have Kraft as our IT partner.”
