

Entrepreneurs & Small Businesses

When you dreamed of owning your own business, you had a lifestyle in mind. And it probably didn't involve debits, credits, payroll, and taxes. No doubt, accounting and tax work can take the fun out of owning a business. Plus, these time-consuming activities can distract owners from core business functions like product development, sales, and customer service.

We'll take care of the numbers while you take care of the business.

Experience

Since 1958, we've been helping entrepreneurs and established business owners in the creation and preservation of business value and personal wealth.

KraftCPAs has a professional staff that is devoted to small businesses — those companies that are owner-operated — whether they are start-ups with big plans for the future or mature businesses that provide the autonomy and lifestyle that many small business owners desire. We serve both types of entrepreneurs — those who plan to operate their business for life and others who plan to grow rapidly and monetize their investment.

Client Success

Our goal is not only to keep you out of trouble with the IRS, but also to help you achieve your business and personal financial goals, so you can still do the things you love and enjoy owning a business.

Clients of all shapes and sizes, from sole proprietors to multi-million dollar businesses, rely on our entrepreneurial services team for accounting, tax, and business advice. No cookie-cutter approach here! We develop an individualized service plan that meets each client's needs and budget.

QuickBooks ProAdvisors and Advanced ProAdvisors

You may already be using QuickBooks to complete various tasks such as entering sales receipts, tracking expenses, preparing/sending invoices, and preparing of basic financial statements and reports.

But are you maximizing the use of your QuickBooks software? Let the KraftCPAs team of QuickBooks

ProAdvisors and Advanced

ProAdvisors show you how to get the most bang for your buck. KraftCPAs can provide individualized QuickBooks training at your office or ours.

We also support several other accounting software programs, including Sage and Microsoft Dynamics.

Client Review

“ We have been working with Tim Stees and KraftCPAs for more than a decade. The hospitality industry evolves quickly and having knowledgeable advisors is important so we can focus on running our restaurants instead of trying to keep up with all the changes to the tax code. They take the time to learn both the individuals as well as the business needs and are always quick to respond. When we were looking at an acquisition, KraftCPAs was our first call. ”
